REAL-TIME BUSINESS ANALYTICS
SAP BUSINESSOBJECTS BI 4.0

INSTANT FIGURES, REALTIME DECISIONS, ANYWHERE
TODAY'S BUSINESS CHALLENGES

Global economic environment puts pressure on finance organizations to provide accuracy and readiness in their reporting. Although current business processes and tools provide accurate information, there is a time-lag between information collection and reporting.

Today, business managers need instant access to the financial figures in order to make the right decisions anytime, anywhere.

The new SAP BusinessObjects BI 4.0 brings the answers : real-time reporting, integration with SAP ERP or non-SAP backend systems, simplicity of use, integration with MS Excel, great visualization and performance.

With its strong expertise and vast experience in both SAP Finance and SAP Business Intelligence solutions, Intensum can help you to achieve today's challenges.

BRIDGE BUSINESS & IT

At Intensum we are quite proud being able to guide and help our customers to achieve their objectives by implementing the latest Business Intelligence solutions from SAP and integrating them with the customer's ERP systems (SAP or non-SAP). We aim to bridge the gap between the IT and business departments thanks to our strong knowledge and understanding of underlying (SAP) ERP process flows.

Thanks to the latest solutions provided by SAP enabling smooth integration of ERP with BI solutions, business users can transparently combine information coming from ERP and Enterprise Data Warehouse.
